Inspiration at Trio

October 14, 2009

The Trio Inspiracje (Trio Inspirations) project, initiated by developer Eco Classic, started Sept. 23 with a meeting entitled "Design of the Future." It was the first in a string of cultural events that Eco Classic plans to hold at Trio, its newest apartment building in Warsaw's Muranów district. The first Trio Inspiracje night featured a concert of works by the internationally acclaimed composer Jan A.P. Kaczmarek, who won the Academy Award for the score to the movie Finding Neverland. Guests at the event also got to see six show apartments which the developer had opened especially for the night.

All Trio Inspiracje events will be hosted by actress Grażyna Wolszczak.
